## The Newton in a Windows Environment (1996 – 2004) Ronnie Simon

### For Organizing Your Life

If you're a person who spends a lot of time away from your office, Newton PDAs provide you with the best and broadest capabilities for capturing and organizing personal and work information. The system's flexible interface allows you to enter information in the manner that works best for you—whether you prefer the system's built-in handwriting recognition feature, the on-screen keyboard, or a plug-in keyboard. Applications built into every Newton device help you intelligently manage contacts, dates, and information. And you can add specialized functions by using any of the hundreds of commercial and shareware applications available. Whether you need to track expenses, pay bills while out of town, monitor email and voice mail accounts, track billable hours, or access reference materials while on the road, the Newton platform provides the best operating system for the most powerful and flexible hand-held devices on the market today.

Capability	My Needs	Corporate Laptop (Windows)	Newton	Phone	ShirtPocket PDA SmartPhone	Ipod	Home Desktop (eMAC)
Contacts	A	x	x	x	x	o

# Newton Connection Utilities

**I**ntegrate your Newton device with your existing Windows PC or Macintosh OS based computer. NCU provides direct synchronization between popular PC applications—such as Microsoft Schedule+, Now Up-to-Date and Contact, and Lotus Organizer—and your Newton PDA. You can also export information from your MessagePad to your personal computer, install Newton software, and even use your PC keyboard to enter data into your Newton PDA.

- ▶ **Backup:** Create a backup file of your Newton PDA and restore information from your backup file to your Newton device whenever necessary.
- ▶ **Synchronize:** Directly exchange information between popular desktop applications and your Newton PDA.
- ▶ **Install Package:** Install Newton software onto your Newton PDA.
- ▶ **Import:** Import information from PIMs, word processors, or text files into your Newton PDA.
- ▶ **Export:** Export information from your Newton PDA to your personal computer in a variety of formats, including word processing and PIM formats.
- ▶ **Keyboard:** Use your PC keyboard to enter information directly into your Newton PDA.

Newton Connection ...

*With Newton Connection Utilities, you can import text and word processing files into your Newton PDA's Notepad.*

*Easily integrate your Newton PDA with your existing Windows PC or Mac OS based computer. Back up and restore Newton information, synchronize data with your computer, and even use the computer keyboard to enter data into your Newton PDA.*

# Newton Press

With Newton Press for Windows PC or Macintosh OS based computers, you can easily publish electronic documents or Newton books for viewing on any Newton PDA. Using drag and drop technology, add word processing documents, graphic files, or simple text documents to Newton Press. Format your Newton Press document, create table of contents entries, establish simple links within your Newton Press document, title your book, and create your book as a Newton package. Distribute your book to anyone with a Newton PDA for viewing, annotating, faxing, or printing. It is ideal for creating meeting agendas, travel itineraries, or reference sales charts.

- ▶ Quickly create an electronic document of all your travel information for a business trip.
- ▶ Distribute meeting agendas to colleagues, complete with charts, graphics, and tables.
- ▶ Create company wide phone directories, employee handbooks and other information for distribution.

With Newton Press, easily create electronic reference information such as a meeting agenda or company phone list.
